The **City of Fredericton** is introducing marked **Bike Lanes** on several streets throughout the community, as well as signed only **Bike Routes** in other areas.

Motorists need to **be aware** that there may be an **increase of bicycle traffic** on the streets throughout the city and are urged to exercise caution, safe driving practices and to **show respect** for cyclists on a shared roadway.

The **Bike Lanes** will be identified by signage that indicates the start and end of lanes and alerts motorists to the **Bike Lane** in various neighbourhoods around the City.

With the addition of painted **Bike Lanes** and signed only **Bike Routes** on select city streets, cyclists are advised to use caution and practice safe cycling as they enjoy the new lanes.

Cyclists are reminded that the rules of the road apply to them as they travel on City streets. This includes **obeying traffic signals & signs** and **yielding the right of way** when appropriate. The rules of the road **will be enforced**.
