Job Vacancy

Waste Water Treatment Plant Operator

As a Wastewater Operator with the Water Resource Recovery/H2O Fredericton division you will be a vital member of the team operating and maintaining the wastewater system throughout the City of Fredericton including 2 treatment facilities and 34 lift stations. The successful candidate will be required to apply skills in facility operations, electrical maintenance, industrial maintenance, and equipment operation.

What You'll Do:

- Operate and maintain the wastewater treatment plant and related equipment, sensors, pumps, motors, and other industry related equipment
- Inspect, clean and maintain sewage lift stations, wet wells, screening/grit collectors, valve chambers, and rotating equipment.
- Operate de-watering systems efficiently
- Install, calibrate and troubleshooting variable frequency drives, motor controllers, process/control equipment
- Maintain electrical systems, troubleshooting as needed and install new equipment
- Maintain records using computer data entry, and organization of data
- Maintain and troubleshoot Programmable Logic Controllers and related equipment
- Using SCADA monitor, investigate and determine process functions are working optimally and make process changes as needed
- Use and have knowledge of personal protective equipment and use the equipment provided by the employer
- Complete sample collection and laboratory tasks to ensure plant operation is effective
- Interaction with the public, contractors and other municipal staff as required
- Required to work in all weather conditions
- Perform manual work with dexterity, competency and self-supervision
- Ability to speak in both official languages would be considered an asset

What You Bring:

- Positive contribution to your team and coworkers
- Strong desire to work on a team to accomplish goals
- Awareness of NB OHS. Knowledge of occupation hazards and safe work habits to work in a busy municipal environment
- Valid Class V NB Drivers license. Class 3 with E endorsement considered an asset
- Ability to establish and maintain working relationships with employees and the public
- Physical strength and agility to complete strenuous labouring tasks
- Knowledge of the tools, equipment, methods, codes and materials
- Diploma in a recognized program or trade which skills can be transferred to this position
- Applicants selected for an interview may be asked to participate in job related testing that includes entering a underground vault and wearing an SCBA

Perks:

- Bi-weekly benefit spending allowance of \$263.26
- Health, Dental and Pension plans.
- Get a behind-the-scenes look at how the city operates.
