-please share as best you can.

#### 1. High Priority Disaster Response Registry

The City of Fredericton, with cooperation from the city's Age-Friendly Advisory Committee, has created an important program to assist those living within the city limits that may be at higher risk during or after an emergency such as a flood or hurricane. This include residents who may need additional assistance beyond what the general public would need in an emergency but who do not have family or professional support.

##### Benefits of registering:

- Emergency personnel can be aware of your special needs and be better prepared to help you when responding to an emergency that affects your home.
- A trained professional may check in on you by phone or in person in the event of a large-scale emergency (or a power outage if you rely on electricity for life-sustaining equipment) and, if necessary, come to help you evacuate your home.
- Peace of mind for you and family members unavailable to assist you in these difficult, and often-traumatic times.

It is easy to register, and your application will be reviewed to ensure you meet the criteria for the registry.

Information about the program, the registry form, and Q&A is available online at <https://www.fredericton.ca/en/safety-services/emergency-preparedness/high-priority-disaster-response-registry>

**WE NEED TO GET THE WORD OUT ~ PLEASE SHARE WITH GROUPS OR ANYONE WHO  
COULD BENEFIT FROM THIS PROGRAM**

- The service is provided as a routine safety check and to reduce loneliness. In some cases, staff and volunteers will connect callers with resources available to them in their community to further assist.
